CAIRO TEXTILE WEEK '25

Knowledge and Innovation are two driving forces in the textile Industry. Cairo Textile Week is designed to offer you the latest knowledge and inform you about current trends and innovations in textiles with special focus on technologies that contribute to new products.

Organized to provide knowledge, it represents as well a business and networking opportunity between different stakeholders in the textiles business.

By participating at CTW 2025 you will be able to:

- Learn from Inspirational presentations through Interactive and focused sessions
- Have networking opportunities with different stakeholders from the industry
- Discover new trends and technologies
- Visit EGY Stitch and Tex exhibition featuring the recent textile technologies offered by the industry

CTW 2025 Topics

- Innovations in Yarns: Opportunities in Recycled Yarns
- New technologies to improve productivity in yarns
- How to source Sustainable Cotton?
- New Sources for Natural blended fibers
- Innovative Solutions in Warp knitting
- Common challenges in Weaving and how to resolve them?
- Enhancing Productivity in Weaving
- New Directions in Pile Circular Knitting
- Effect of knit structure and finishing on knitted fabrics.
- Adding Value to Fabrics: New innovations in Finishing
